Topic 3. Strategic Plans

The consideration of accessibility in national strategic plans shows the commitments of Member States to carry out accessibility initiatives in the medium/long term. Their existence is an important step, but other important parameters include their duration, periodic reviews and the involvement of people with disabilities during implementation.

Indicator 3.1: Existence of national accessibility strategy and/or plan.

- **Description:** Identification of comprehensive national accessibility strategy and/or plan to identify, remove and prevent barriers to accessibility
- **Areas:**
 - **Built environment, Transport, Information and Communication Technologies and Public Policies:**

RESULT	YES
INFORMATION	The National Plan for the Promotion of Equal Opportunities for Persons with Disabilities 2021-2025 incorporates accessibility components.
SOURCES	National Plan for the Promotion of Equal Opportunities for Persons with Disabilities 2021-2025

Indicator 3.2: Duration of accessibility strategy and/or plan

- **Description:** Number of years foreseen to implement the identified national accessibility strategy and/or plan
- **Areas:**
 - **Built environment, Transport, Information and Communication Technologies and Public Policies:**

RESULT	4
INFORMATION	The National Plan for the Promotion of Equal Opportunities for Persons with Disabilities incorporates accessibility components and covers the period 2021-2025.
SOURCES	National Plan for the Promotion of Equal Opportunities for Persons with Disabilities 2021-2025

Indicator 3.3: Periodic review of accessibility strategy and/or plan

- **Description:** The identified national accessibility strategy and/or plan is reviewed and/or updated on a regular basis
- **Areas:**
 - **Built environment, Transport, Information and Communication Technologies and Public Policies:**

RESULT	NA
INFORMATION	No specific information has been identified regarding the periodic review of the National Plan for the Promotion of Equal Opportunities for Persons with Disabilities 2021-2025, which incorporates accessibility components.
SOURCES	National Plan for the Promotion of Equal Opportunities for Persons with Disabilities 2021-2025

Indicator 3.4: Involvement of people with disabilities in accessibility strategy and/or plan

- **Description:** Persons with disabilities and their representative organization actively participate to the implementation and monitoring of the identified national accessibility strategy and/or plan. This information could be found in annual implementation reports of public authorities.
- **Areas:**
 - **Built environment, Transport, Information and Communication Technologies and Public Policies:**

Topic 4. Audits

The level of implementation of accessibility audits in a country is one of the ways to better understand the impact of accessibility initiatives onto facilities, services, and programmes. It also calls for auditors that are adequately trained to carry out this work in cooperation with people with disabilities.

Indicator 4.1: Implementation of accessibility audits.

- **Description:** Implementation of accessibility audits on public and/or private facilities, services and programmes. This information could be found in information published by public authorities, disability organizations and/or organizations promoting education and training on accessibility.
- **Areas:**
 - **Built environment, Transport and Public Policies:**

RESULT	YES
INFORMATION	The situation is not unified across the sector. The auditing is not organized on national level as there is no specific requirement on qualification. The organization representing both persons with disabilities and experts in this field “Národní institut pro integraci osob” is one of the largest providers of audits for both public and private sector and is represented in every region.

Topic 5. Complaints

Information about accessibility-related complaints can provide a better understanding of the mechanisms used in each EU Member States to listen and respond to the needs of people with disabilities.

Indicator 5.1: Number of complaints on accessibility.

- **Description:** Number of complaints related to accessibility of persons with disabilities that have been received by public authorities and their outcomes (proportion redressed)
- **Areas:**
 - **Built environment, Transport, Information and Communication Technologies and Public Policies:**

RESULT	NA
INFORMATION	The Office of the Ombudsman monitors compliance with the requirements of the UNCRPD and addresses complaints that fall within its competence (i.e., the procedure of authorities and state institutions, powers that do not extend to local government, courts, enforcement, civil, labour and criminal matters, reservations to laws, actions of MPs, the Government and the President). No specific information has been identified regarding the number of accessibility-related complaints by this organisation.
SOURCES	Office of the Ombudsman

Topic 6. Trainings

The successful implementation of accessibility initiatives depends largely on the existence of trained professionals. The following indicators would provide a better understanding of efforts undertaken in each Member States to increase and improve the range of professionals receiving suitable knowledge and skills on Universal Design / Design for All.

Indicator 6.1: Existence of trainings on Universal Design / Design for All.

- **Description:** Identification of courses offering accessibility and universal design modules in educational curricula of relevant professions. This includes courses at higher education, vocational education and training (VET) and lifelong learning programmes.
- **Areas:**
 - **Built environment, Transport, Information and Communication Technologies, and Public Policies:**

RESULT	NO
INFORMATION	There are no mandatory special courses in study programmes in this field of studies. Barrier free design is usually a part of standard study programmes in architecture/engineering/design universities, but only at a very limited and insufficient level.
SOURCES	NA

Indicator 6.2: Number of trainings on Universal Design / Design for All.

- **Description:** Number of courses offering accessibility and universal design modules in educational curricula of relevant professions. This includes courses at higher education, vocational education and training (VET) and lifelong learning programmes.
- **Areas:**
 - **Built environment, Transport, Information and Communication Technologies, and Public Policies:**

RESULT	0
INFORMATION	There are no mandatory special courses in study programmes in this field of studies. Barrier free design is usually a part of standard study programmes in architecture/engineering/design universities, but only at a very limited and insufficient level.
SOURCES	NA

Indicator 6.3: Involvement of people with disabilities in trainings on Universal Design / Design for All.

- **Description:** The identified courses offering accessibility and universal design modules involve persons with disabilities and their representative organization during the design and delivery.
- **Areas:**

- **Built environment, Transport, Information and Communication Technologies, and Public Policies:**

RESULT	NO
INFORMATION	There are no mandatory special courses in study programmes in this field of studies. Barrier free design is usually a part of standard study programmes in architecture/engineering/design universities, but only at a very limited and insufficient level.
SOURCES	NA

Indicator 6.4: Number of trainees on Universal Design / Design for All.

- **Description:** Number of people participating in courses offering accessibility and universal design modules. This includes courses at higher education, vocational education and training (VET) and lifelong learning programmes.
- **Areas:**
 - **Built environment, Transport, Information and Communication Technologies, and Public Policies:**

RESULT	0
INFORMATION	There are no mandatory special courses in study programmes in this field of studies. Barrier free design is usually a part of standard study programmes in architecture/engineering/design universities, but only at a very limited and insufficient level.

Topic 7. Public Awareness

The successful implementation of accessibility initiatives is not possible without a population that is aware of their rights and responsibilities. In this sense, awareness raising campaigns are essential to get all citizens involved. These indicators will show efforts undertaken by public authorities to organise public awareness activities to promote accessibility.

Indicator 7.1: Existence of public awareness raising campaigns on accessibility.

- **Description:** Identification of awareness raising campaigns and activities organized by public authorities to promote accessibility and inform individuals of their rights and responsibilities as they relate to accessibility
- **Areas:**
 - **Built environment:**

RESULT	YES
INFORMATION	Such events or activities are mostly organized by relevant organisations either offering services for persons with physical disabilities or organisations providing expertise and monitoring in the field of built environment. One of the most important conferences “Together to accessibility” hosted yearly gathers experts on BE accessibility, HE architecture teachers, governmental bodies etc.
SOURCES	NA

- **Transport, Information and Communication Technologies and Public Policies:**

RESULT	No
INFORMATION	No public awareness raising campaigns have been identified in the areas of Transport, ICT and Public Policies.
SOURCES	NA

Indicator 7.2: Number of public awareness raising campaigns on accessibility.

Topic 8. Incentives

Public authorities can demonstrate their level of commitment on accessibility by providing more resources to promote change. The following indicators would provide a better understanding of actions taken to incentivize goods and service

providers to improve accessibility and respond to the needs of people with disabilities.

Indicator 8.1: Existence of public funding initiatives promoting accessibility.

- **Description:** Identification of measures from public authorities, such as funding / incentive schemes, to incentivize goods and service providers to improve accessibility of goods and service provisions, including information about accessibility to potential users
- **Areas:**
 - **Built environment, Transport, Information and Communication Technologies and Public Policies:**

RESULT	No
INFORMATION	No public funding initiatives have been identified in Czechia.
SOURCES	NA

Indicator 8.2: Amount invested on public funding initiatives promoting accessibility.

- **Description:** Amount of funding provided by public authorities to incentivize goods and service providers to improve accessibility of goods and service provision, including information about accessibility to potential users
- **Areas:**
 - **Built environment, Transport, Information and Communication Technologies and Public Policies:**

RESULT	0
INFORMATION	No public funding initiatives have been identified in Czechia.

Topic 9. Situation on the ground

This indicator assesses the impact onto individuals of the commitments and efforts of EU Member States to implement accessibility initiatives. It is the last step in the implementation chain and could presents greater challenges in acquiring data, mostly due to the absence of existing data at this moment.

Indicator 9.1: Number and proportion of services in compliance with legal requirements

- **Description:** This indicator includes information such as the number and proportion of:
 - existing public/governmental facilities that meet accessibility requirements and/or standards;
 - websites and mobile applications of public sector bodies that comply with web accessibility standards; and
 - public transportation facilities that meet accessibility requirements and/or standards
- This information could be found in various types of repositories such as implementation reports regularly published by relevant public authorities and findings of accessibility audits.
- **Areas:**
 - **Built environment:**

RESULT	NA
INFORMATION	Some municipalities and entities carry out mapping, partly according to the methodology of the Ministry for Regional Development (MMR, 2018), and some other entities use their own methodologies. There is no central registry for Accessibility Information Schemes. The mapping parameters in the MMR Methodology are set in a user-oriented way but do not correspond to the requirements of the Decree on Accessibility of Buildings, and do not comply with EN 17210.
